Lower Level is Reached, Followed by a Rapid Recovery in Prices.

CLOSE SHOWS DUL!NESS

INDEPENDENT MILL ANNOUNCES ADVANCE ON STEEL BARS.

New York, Aug. 24 .- Operations in the stock market today were governed | Sloss S. St. & L. largely by circumstances attending the So. Pacific 57,800 134% arrival of E. H. Harriman. Almost So. Railway 2,300 31% all other considerations were over-shadowed by this one event. It was in 'ruth a waiting market, waiting for word, good, bad or indifferent, concerning the distinguished passenger on the trans-Atlantic liner. The "street" was showered all day with bulletins was showered all day with bulletins recording the progress of the ship towards port, and some encouragement was manifested in a wireless message sent by the railroad magnate to the Associated Press, some hours in advance of his landing, wherein he spoke of his condition as being good and reiterated his statement of June 1 last, the substance of which was that the country was going forward in a highly satisfactory manner.

country was going forward in a highly satisfactory manner.

Opening prices were a reflection of the uncertain undertone. The movement was irregular, with fractional davances in many of the better known issues, which soon turned to substantial losses. From this low level there was a rally and some activity until noon, when announcement of the regular dividends on Union Pacific common and preferred, and Southern Pacific common gave the shorts another excuse to sell those stocks.

Recovery Is Rapid.

Recovery was very rapid, however, and by I o'clock practically the whole list was above the previous day's' best prices. Reading and United States Steel were the most conspicuous issues, the latter advancing to within a fraction of its recent high record. Union Pacific and Consolidated Gas

advanced materially, with later move-ments in Erie and National lead. The market as a whole was rather narrow, with a marked diminution in the volume of business. Stocks was revived in the last hour, but the close was dull and generally lower than the was dull and generally lower than the previous day. Among the few exceptions were Canadian Pacific, Denver & Rio Grande, Reading and Wabash, among the railroads and United States Steel, Consolidated Gas, Brocklyn Union Gas, National Leead and the local tractions, all of which registered net gains. London operations here were too trifling for comment, probably less than 100 shares either way.

The commodity markets were again The commodity markets were again unsettled at Chicago, September, and December wheat options closing lower. Corn was up on buying, said to be influenced by better weather conditions in the southwest. An authority reported that available supplies of wheat stocks east of the Rockies had increased by 530,000 bushels during the last week with a decrease of 69,000 bushels in Canada.

12.53/13.07. December, 13.05 to 13.07.28. Sales were reported of twenty-five tons November and fifty tons December, both at 13.00.

Some Sanguine Forecasts.

Apart from rather sanguine forecasts regarding the earnings of the United States Steel corporation for the current year, the most interesting industrial news of the day was an advance by one of the independent mills of one dollar per ton on steel bars. It is believed that this movement will be followed by other manufacturers. The local monetary situation was extremely dull and uninteresting. Last week's promises of an increased demand for money at higher rates are this far unfulfilled.

GRAIN AND PROVISIONS.

Chicago, Aug. 24.-The wheat market experienced several short periods of firm-ress at different times today, but sentiment was bearish and prices ranged gen-erally below yesterday's close, Radical declines in the price of wheat Radical declines in the price of wheat at the leading European grain centers, and the continued declining tendency of cash prices in this country were the principal bearish factors. St. Louis reported cash wheat it lower, and much of it unsold. Sample table prices here were also off from ½ to ic. Receipts of new wheat at Minneapolis today were 112 cars, and although scattered rains were reported throughout North Dakota last night, the movement of the spring wheat crop is expected to increase daily. Threshing reports were again optimistic. September during the day ranged between 97 and 98, while December sold between 93½ and 94½.
